

Access Statement for Powys Pods

Introduction

We aim to provide an accessible site to all our guests and to have staff and equipment to help provide any assistance that is needed.

Pre-Arrival

- The nearest bus stops are about 20 minutes away by car. The buses are not wheelchair accessible.
- The nearest train station to us is about 25 miles from us. A taxi can take guests to our site, or a bus can be taken to a nearby town where a pick-up service can be arranged.
- We can be contacted via our website and by phone. Please ensure that we have provided you with adequate directions of how to find us, and please note that phone reception in the area is poor.

Arrival and Car Parking facilities

- There is a gravel car park area on the left as you approach the farm yard, before passing the Camping Pods. There is a steep incline, but there is a level parking area adjacent to Bryn-Gwyn Camping Pod.
- Guests may drive down to the farm upon arrival, and refer to the noticeboard in the farmhouse porch if no one is immediately available. A Welcome Pack can be found in the Camping Pod.
- A telephone is available in the porch of the farmhouse should guests need to contact us during their stay. This is made clear on the notice board and in the welcome packs provided.

Public Areas - General (Internal)

- The site is made up of compressed stone and gravel or decked surfaces.

Camping Pods (lower area)

- Bryn-Gwyn and Allt Dderw Pods are located on the lower camping area, along with the toilet/shower units and the facilities (washing up/cooking) area.
- Bryn-Gwyn Pod has level access to the car park adjacent to it, and a level compressed stone/gravel pathway to the toilet/shower/facilities area. There is decking in front of the Pod, and a small ramp in front of the doorway into the Pod.
- Allt Dderw Pod is not wheelchair accessible. There are two steps onto the decking area in front of the Pod.

Camping Pod (upper area)

- Ardwyn Pod is not wheelchair accessible, or suitable for guests with limited mobility. There are stone steps up a bank to the Pod, and steps to access the Pod itself.

Lawn

- The lawn is situated below the Pods on the Lower Camping Area, and has a grass surface. It can be accessed by a sloped grass pathway beside Allt Dderw Pod.

Toilet & Shower units (wet rooms)

- The shower/toilet unit nearest to the Bryn-Gwyn Pod has disabled access. There are hand rails, a shower stool and the shower is easy access and suitable for operation by disabled users. The sink has pull leaver taps, and the toilet has a recessed push button on top of the cistern for flushing.
- The middle toilet unit is also easy to access, and contains a drying room also. There are no hand rails for disabled users.
- The remaining toilet/shower unit is easy to access but does not have hand rails.
- The toilet/shower units are accessed from a level area of decking, that has a shallow ramp on the Family Pod side.

Facilities

- There are washing up and cooking facilities in the Facilities area on the Lower Camping Area. There is hot water, and the sinks are of standard height with lever-pull taps.
